Registered Raspberries

ALL TOP GRADE AND SIZE PLANTS.

Propagated by the Ohio Small Fruit Improvement Association. Almost disease free; every plant individually hand-tipped, graded and dug by members of the Association under strictest inspection and regulations permitting 1% or less virus disease and not more than 1/4% of gall in parent plants. Spring Hill does not recommend you purchase these extra quality plants unless you can plant them away from uninspected raspberries. An isolated patch with proper care will far outyield ordinary plants and remain healthy for years. We can supply Bristol, Cumberland and New Logan.

EVERGREEN DIGGING NOTICE

All evergreens for shipping will be fresh dug from our field bare root and wrapped in moist peat. Present day delivery and packing costs make it too expensive to ship balled and burlapped. Our experience shows that bare root evergreens deliver better and grow just as good. Balled and burlapped evergreens available when you drive to the nursery.

RAPID-GRO

We recommend this fine product to all gardeners for more productive gardens; better lawns; larger and more beautiful blooms. When planting soak roots of roses, shrubs, trees, evergreens, etc. 3 to 5 minutes in Rapid-gro (simply use 1 teaspoon per quart or 4 teaspoonsful per gallon, etc.) dip strawberries, perennials for a few seconds. Pour remainder of solu-

ROSA MULTIFLORA The Miracle Living Fence

3H1—Protect and beautify your property. A cheap, practical fence that grows so dense no person or animal can get through.

The plants grow 6 to 8 ft. tall and 5 to 7 ft. wide, are tough and fast growing. Covered with a multitude of white flowers in spring; loaded with attractive red fruit in fall and winter which provide food for wild life. Recommended by U. S. Soil Conservation service for livestock farm fence and for factories, parks, estates, institutions, residences, etc. that wish to keep animals and trespassers off their property. Present recommendation by U. S. D. A. are to plant 1 ft. apart in a single row for stock tight fence. Ornamental hedges can be planted 18 inches apart and kept trimmed to desired height. Trial fences

planted throughout east, west and south have proven successful. North of Milwaukee there is danger of winter injury. The general use of rosa multiflora is just beginning but its value is proven for cheap fence, game management, property protection, windbreaks, and erosion control to soil and crops, will last for generations.
